

My Digital Bizz – Warehouse worker

We are looking forward to a warehouse worker (m / f) as reinforcement. You will work as a warehouse worker in a technical environment, given the activity within metalworking. If you have knowledge of metalworking and / or a first work experience, this is certainly an asset.

- In terms of duties, you will be responsible for ...
- Preparing (per customer) of orders and finishing orders
- Follow up and organize urgent orders
- Carry out necessary administration (including drawing up shipping notes)
- Correct registration in the ERP package (smooth entry is a must)
- Sporadically use a forklift / overhead crane for large / heavy items

There is room to learn the job, but it is very important that you have a good understanding. After all, certain customers often order the same items, so that you will be able to switch quickly in the long term. In no time, you control the right flow in the warehouse and you like the variety in the job.

You will join a team of 3 experienced colleagues who have been working in the warehouse for years. In short, a stable team who are also looking for a new colleague to complete their team in the long term.

- You are meticulous and punctual.
- Logical reasoning and good memory are no problem.
- You are someone who likes to have variety within a fixed structure.
- Working with a PC / administration is no problem.
- Stable employment history
- Forklift certificate + overhead crane certificate are an asset
- Room for development within a permanent team of colleagues
- Good salary supplemented with meal vouchers of 6 euros (awarded after 6 months of seniority in the company)
- Freedom in the job
- Permanent job for the long term
